Leaf Imprints and Colour Chart Handmade Paper	17
Indipaper Wholesale Price List and Conditions	18, 19
Order form	20

About the beautiful paper

My name is Maaïke Vlam and I would like to present Indipaper.

Welcome to the art of paper making and its limitless possibilities.....

Our paper is for those who are fond of out-of-the ordinary objects and are demanding in terms of finishing touches, willing to spend extra to get something quite original. Those who buy our products are also people who love nature and like to be reminded of it while looking at our paper. The paper is stronger, more beautiful and more versatile than industrial papers. It offers a great variety in texture and colour, depending on the fibres or combinations of fibres that are used. Our hand made paper is made only from vegetal fibres. It is free from toxic substances and its manufacture does not require the felling of trees.

Nature herself contributes lavishly to the making of our products. Entire gardens and forests - flowers, petals, stems, leaves, bark, grass, and seeds - combine to adorn and put their living forms and spirit onto the paper, making each product a unique creation. Our items are conceived to highlight the natural beauty of the paper and are lovely in their simplicity. Nature herself is the artist. The paper itself provides its own design.

Our paper products are created and manufactured in a wonderful city in the South of India, by a company which employs more than 60 workers, mostly women, who come from neighbouring villages. They are given training and made sensitive to ecological concerns and a greater appreciation of nature's beauty. Creative capacities are encouraged in an atmosphere of constant learning and striving for perfection.
